**Callahoe's Benicio :\$ 1,980 Cdn/dose**

**Please note: no member discount can be offered on Benicio doses**

After his licensing, Benicio was taken to South Africa. Two years later, however, having been convinced by the high quality of his foals and his extraordinary potential for advanced level dressage, Benicio returned him to Germany to be professionally trained by Anna-Sofie Fiebelkorn for sport and to earn his full breeding approval for the Hanoverian Studbook.

The rest is History. This remarkable partnership elevated Benicio out of nowhere to win the 2011 German Bundeschampionate for the six year old dressage horses and the Stallion Performance Test at Schliektau with perfect 10's for walk, trot and canter. His final score for the dressage section, 9.88, superseded even that of his father and is the highest score ever achieved in the history of the stallion performance test. With these scores, combined with his faultless rideability and character, this incomparable stallion has captivated the European dressage and breeding community.

## Quaterhall: \$660 Cdn/Dose

Quaterhall has become a notable breeding stallion. With his rider Charlott Maria Schurmann, Quaterhall competed in the Bundeschampionate in both 2013 (placing 5th) and 2014 (placing 14 in the consolation finals). Together the two went on to compete at the Prix St. Georges level performing quite well. Quaterhall is a liver chestnut son of the legendary Quaterback out of St.Pr.St. Dorata, sired by Donnerhall/Walt Disney, and he comes from what some consider the most successful dam line of the Brandenburg Main and the County Stud Neustadt in Dosse. The mare Poesie produced the licensed stallions Samba Hit I to IV, as well as, the exceptional mare Poetin. Quaterback himself instantly proved with his earliest foal crops. He fathered both champions at the 2010 German foal championship in Lienen, and has also already produced over 18 licensed stallions. More than 50 sons and daughters have sold at the Verden auction, including one son achieving a top price of 120.000 euros in 2008. With the sire Bundeschampion Quaterback, and the famous dressage dam sire Donnerhall, Quaterhall guarantees extraordinary movement potential in his offspring. They are always in great balance, having supple and floating movements, and a phenomenal walk which is inherited from the D-line.

**Viscerado: \$660 Cdn per dose**

Viscerado's career started at young age. He was discovered by breeder Hacke in Meinersen and grew up on the fields of Hunnesrück. At the age of two and a half, he already was quite tall but needed more time to develop, so the State Stud decided on a slower start and therefore a later presentation for approval at the age of 4. This plan proved to be beneficial to him. He won the preliminary qualifier for the Hanoverian Championship of 4 years old jumping horses under his rider Christopher Dittmann with a score of 8.8 because of a nearly perfect canter, extravagant jump and excellent rhythm. At the finals the pair did a nearly perfect round as well, only missing first place due to a small time fault and became reserve champion. But the next victory went to Viscerado. He dominated his 50 -days- test at Neustadt Dosse with final score of 9.19 with emphasis on jumping. Marks included 9.0 for his ground covering uphill canter and his excellent manner were accomplished by 9.5 for his work attitude, rideability and his ability. The judges even awarded him a perfect 10 for his overall impression.

Talent is deeply rooted in his mare line. Viscerados mother, St.Pr.St. Raphaels Girl (Raphael/Eiger), impressed with her own performance test, with a perfect 10.0 in her free jumping score. The half sister of Viscerado, Hann.Pr.A. Quaida Bunti, proves true that St.Pr.St. Raphaels Girl passes her attributes on her offspring. Beside a 9.0 for ability she persuaded the judges by her canter, rideability and manner. This incredible hereditary potential of the mother line combined with Viscount lead to Viscerado- a stallion who offers the complete package.
